Globus family of brands Updated Travel Statement on their sites/Travel Advisor Portal

As you are all aware this situation is changing every few hours but wanted to share our most recent update. I know we are all on the front line of this and doing our best to take care of your members and their clients. We will continue to share updates.

TRAVEL UPDATE (AS OF MARCH 1, 2020)

In response to the Coronavirus (Covid-19) outbreak and the subsequent U.S. State Department warning to avoid all travel to China and the regions of Veneto and Lombardy in Italy, Globus has instituted a travel policy relating to travel to and through these areas to help ensure the health and safety of our guests.

Globus is temporarily suspending the operation of China as well as operations in Veneto and Lombardy regions of Italy itineraries – and those vacations that include stops in these areas – through April 30, 2020. Our guest services team are contacting guests affected by these cancellations in order to adjust their travel plans.

As an added precaution for the health and safety of all of our guests, anyone who has traveled from/visited or transited through China, including Macau, or traveled from/visited Hong Kong, or South Korea, within the 21 days prior to the start of their vacation will not be allowed to travel on any Globus tour.

Additionally, some governments have implemented wider restrictions that limit the arrival of travelers who have traveled from/visited or transited through countries beyond those currently within the Globus policy above. We recommend that you check the current travel policy of your final destination for further details.

We continue to monitor the situation closely to determine if additional modifications and updates are needed in accordance with U.S. and international travel advisements and policies.
