## To Our Valued Travelers,

Part of who we are is influenced by where we've been, and travel is one of the best ways to enrich your life by creating joyful memories. As parts of the world slowly begin to welcome visitors once again, you may be thinking about how and when you should make plans to explore new places.

Travel as we have known it has changed, but the desire to experience new places has not gone away. We know safety is a priority and you want your whole trip to be as worry-free as possible. Many of our travel partners have implemented new health and safety protocols, and adjusted their policies with more booking flexibility, so you can feel more secure making future travel plans.

When you feel the time is right, our agency will prepare you with everything you need to know from travel advisories and documentation requirements, to the best travel offers. Know that when you travel, you'll have direct access to our personal care and attention before, during and after your trip. We are here for you when you're ready to plan your next adventure.

## Why You Should Use a Travel Advisor Now More Than Ever

### Resources and Leverage

Life is unpredictable. If a personal issue finds you needing to re-book - and fast - there's no one better to have on your side in a pinch than a Travel Advisor.

### Navigate Mother Nature

It's a Travel Advisors job to know what is open and what isn't, and they can provide reassurance whether or not it's okay to travel to a destination.

### Things Happen and Change

Travel Advisors keep you informed and remind you to complete the necessary steps, so there are no surprises when you go to the airport.

### Deal with A Real Human

Travel Advisors treat you like a person, not a booking number. They want to make sure that you have a good trip, and love hearing from clients when they return from their fabulous holiday.

### Avoid the Online Nightmare

When crises happen, you're not stuck in a queue waiting for access. Find comfort in knowing you have direct access to the personal care and attention of your Travel Advisor.

### Travel Advisors Save Time

Travel Advisors are well connected, so if they haven't personally been to your destination, chances are they know someone who has and will guide you to the hidden gems.
